	LABORATORY/EQUIPMENT SAFETY CLEARANCE FORM		Version: 1.2
			Issued: 07.07.2014
			Page: 1 von 1

Customer information:

To protect our employees against contaminated equipment, we will just start any service (repair, maintenance, calibration etc.) after receiving this completed and signed form. If you want to use your own form, please feel free to do it, as long as long as the content of your form is similar.

To be completed by customer/principal:

This is to certify that the laboratory equipment and/or room listed below is considered safe for maintenance work, repair and/or calibration. All hazardous materials have been removed.

All potentially contaminated surfaces have been decontaminated in accordance with Environmental Health and Safety requirements.

Tape a copy of the completed form to the piece of equipment or put it into the packaging (if it is valid for various equipment).

Company /Laboratory name:			
Address:
